Preparation / Revision Date 4/28/2011

Expiry Date 4/26/2014

## 1. PRODUCT AND COMPANY IDENTIFICATION

Chemical Name 2-Amino-7-hydroxy-1,8-naphthridine

Catalogue # A611635

**Company** Toronto Research Chemicals

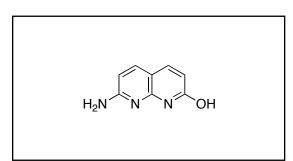

2 Brisbane Road

Toronto, ON M3J 2J8

**CANADA** 

Telephone +14166659696 FAX +14166654439 Emergency# +14166659696

Email orders@trc-canada.com

### 2. HAZARDS IDENTIFICATION

**WHMIS Classification** 

D1B Toxic Material Causing Immediate and Toxic by ingestion

D2B Serious Toxic Effects M

Moderate skin irritant Severe eye irritant

**HMIS Classification** 

Health hazard: 2 Flammability: 0 Physical hazards: 0

**Potential Health Effects** 

**Inhalation** May be harmful if inhaled. Causes respiratory tract irritation. **Skin** May be harmful if absorbed through skin. Causes skin irritation.

**Eyes** Causes eye irritation. **Ingestion** Harmful if swallowed.

**GHS Classification** 

Acute toxicity, Oral (Category 4) Skin irritation (Category 2) Serious eye damage (Category 1)

GHS Label elements, including precautionary statements

Signal word Danger

Hazard statements

H302 Harmful if swallowed.
H315 Causes skin irritation.
H318 Causes serious eye damage.

**Precautionary statements** 

P280 Wear protective gloves/ eye protection/ face protection.

P301/P310 IF SWALLOWED: Immediately call a POISON CENTER or doctor/ physician.

P305/P351/P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and

easy to do. Continue rinsing. **GHS Label Pictograms** 

Toronto Research Chemicals - A611635

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Molecular Formula:  $C_8H_7N_3O$ 

Molecular Weight: 161.16

**CAS Registry #:** 1931-44-8

EC#:

2-Amino-1,8-naphthyridin-7-ol; 7-Amino-1,8-naphthyridin-2-one

Synonyms:

## 4. FIRST AID MEASURES

#### **General Advice**

Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

#### If inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

#### In case of skin contact

Wash off with soap and plenty of water. Consult a physician.

### In case of eye contact

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

#### If swallowed

Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

## 5. FIRE FIGHTING MEASURES

# Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

### Special protective equipment for fire-fighters

Wear self contained breathing apparatus for fire fighting if necessary.

### 6. ACCIDENTAL RELEASE MEASURES

#### Personal precautions

Use personal protective equipment. Avoid dust or aerosol formation. Avoid breathing vapours, mist or gas. Ensure adequate ventilation.

# **Environmental precautions**

Do not let product enter drains.

#### Methods and materials for containment and cleaning up

Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable, closed containers for disposal.

## 7. HANDLING AND STORAGE

#### Precautions for safe handling

Avoid contact with skin and eyes. Avoid formation of dust or aerosols. Provide appropriate exhaust ventilation at places where dust/aerosol is formed. Normal measures for preventative fire protection.

Toronto Research Chemicals - A611635

### Conditions for safe storage

Keep container tightly closed in a dry and well-ventilated place. Store at -20°C.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Contains no substances with occupational exposure limit values.

### Personal protective equipment

## Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

## **Hand protection**

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

### Eye protection

Face shield or safety glasses. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

### Skin and body protection

Complete suit protecting against chemicals, if needed after risk assessment. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

## Hygiene measures

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

### Specific engineering controls

Use mechanical exhaust or laboratory fumehood to avoid exposure.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

## **Appearance**

Yellow-brown solid

#### Safety data

N/A	Melting point	>325°C (dec.)
N/A	Flash point	N/A
N/A	Lower explosion limit	N/A
N/A	Vapour pressure	N/A
N/A	Water solubility	N/A
	N/A N/A N/A	N/A Flash point N/A Lower explosion limit N/A Vapour pressure

# 10. STABILITY AND REACTIVITY

### **Chemical stability**

Stable under recommended storage conditions.

### Conditions to avoid

Light. Air. Moisture.

#### Materials to avoid

Strong oxidizing agents.

## Hazardous decomposition products

Hazardous decomposition products formed under fire conditions: carbon oxides, nitrogen oxides.

### 11. TOXICOLOGICAL INFORMATION

no data available

#### Irritation and corrosion

no data available

#### Sensitization

no data available

### Carcinogenicity

IARC: To the best of our knowledge, this compound has not been identified as a possible or potential human carcinogen by IARC.

### Reproductive toxicity

no data available

#### Potential health effects

InhalationSkinMay be harmful if inhaled. Causes respiratory tract irritation.May be harmful if absorbed through skin. Causes skin irritation.

**Eyes** Causes eye irritation. Harmful if swallowed.

### Signs and Symptoms of Exposure

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

#### **Additional Information**

RTECS: not listed

## 12. ECOLOGICAL INFORMATION

Toxicity Persistence and degradability Bioaccumulative potential

no data available no data available no data available

Mobility in soil PBT and vPvB assessment Other adverse effects

no data available no data available no data available

### 13. DISPOSAL CONSIDERATIONS

### **Product**

Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.

### Contaminated packaging

Dispose of as unused product.

## 14. TRANSPORT INFORMATION

## DOT (US)/IMDG/IATA

not dangerous goods

# 15. REGULATORY INFORMATION

## **DSL Status**

Product is not on the Canadian DSL or NDSL list.

## **WHMIS Classification**

D1B Toxic Material Causing Immediate and Toxic by ingestion
D2B Serious Toxic Effects Moderate skin irritant
Severe eye irritant
